Product highlights

Plug & Play pack - 3 handsets
A convenient Plug & Play phone package including a base and 3 handsets.

Free intercom
No need to stop what you are doing and go to give the handset to your son when his friend calls: you can freely and easily call the handset in his bedroom and transfer the call.

Digital answering machine
With a digital answering machine, you'll never miss a call or message.

15-minute recording time

Illuminated message-counter
Just look at the base station to instantly know whether you have received any messages.

Icon-driven color menu
All functions are grouped into several menu items that are symbolized by a colored icon. This facilitates navigation and use of the phone.

Selectable wallpapers
An illustration is worth more than a thousand words. Scroll through the selection of images integrated into the handset. Select the one that best suits your mood of the day and have it displayed as a background on your screen.

Great for gaming
Let your phone be your stress relief. Sit back, select a game and set a new high score!

Keep in touch by SMS texting
The SMS is a simple way to exchange information over the telephone line. You first type your text off-line and when you are ready, you send it to as many people as you like.

VIP function
Identify who's calling by the ringtone! The VIP icons and melodies indicate to which group in the phonebook the caller belongs. Phonebook entries can be divided in different VIP groups for which you can allocate a specific ringtone.

Speakerphone - Talk handsfree
Handsfree mode uses a built-in loud speaker to amplify the voice of the caller, allowing you to speak and listen during a call without holding the phone to your ear. This is especially useful if you want to share the call with others or take notes during a call.
